Task(1)- CLOUD STORAGE SETUP

To demonstrate the creation and configuration of cloud-based storage using AWS S3, by setting up a storage bucket, uploading sample files, and managing access permissions.

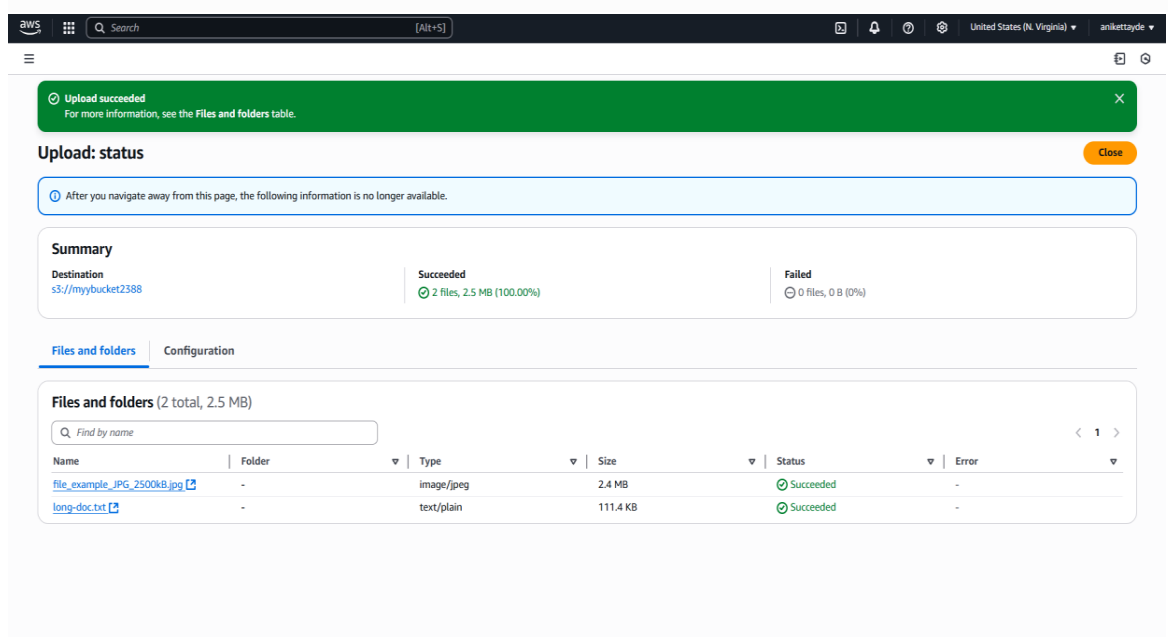

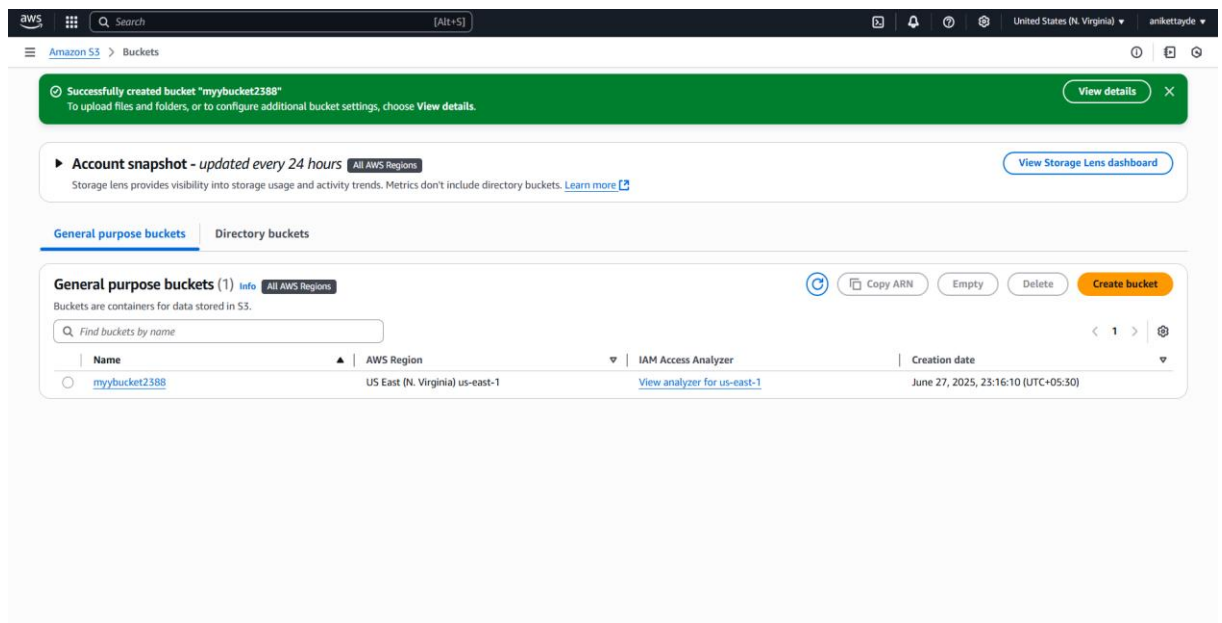

This showcases practical understanding of cloud infrastructure, secure file hosting, and permission control in cloud environments.

- **Objective-**

1. To demonstrate the creation and configuration of cloud-based storage using AWS S3, by setting up a storage bucket, uploading sample files, and managing access permissions.

2. This showcases practical understanding of cloud infrastructure, secure file hosting, and permission control in cloud environments.
